SUMMARY

I build websites for local businesses that are good at what they do but are losing customers to a search result. I design, write and build every Loomwest site by hand and stay the point of contact afterward. Before a site goes live, I measure it on a phone and check it against a nineteen-point launch checklist.

EXPERIENCE

Founder and designer, Loomwest (Gilroy, California) — August 2026 to present

- Design, copy, build and launch of websites for local businesses at fixed prices, live in three to seven days.
- Eight sites live (seven for clients plus loomwest.com), two more in client review.
- Every launch ships with a private preview and a review form, a privacy page, map links, and visit counting with no cookies.
- Care plans for changes after launch; local ads built and managed for clients; a free Website Report Card for any business.
